

Wastewater Treatment Plant Operator

A position will be opening up for an individual who would like to expand their carrier in the environmental field. An Environmental Lead Operator position is an opportunity to do just that. This person should hold a Wastewater Treatment Plant Operator III license or be able to obtain one in one year after being hired. This person also must hold a very small or class I Water Operators license, or be able to obtain one within one year of being hired. Duties for this position will be to oversee the day-to-day operation of a 3.5 MGD Activated Sludge Wastewater Treatment Plant, and a 4.0 MGD new state of the art Water Distribution System. This water system supplies water at drinking water standards to the entire facility. You should have management skills to manage eleven employees within the department. This would include a licensed Wastewater Treatment Plant Operator, a Wastewater Treatment Plant Operator trainee, a Maintenance Mechanic, and eight Environmental Operators. The Environmental Lead Operator will also oversee the day-to-day by-products waste system. You must have the ability to do process control lab when needed. This position will be an excellent stepping-stone into a management position within the company.

Excellent pay and benefits are available D.O.E. If interested contact the Environmental Supervisor at 678-6729. Monday through Friday from 7:00 a.m. to 4:00 p.m.
